CORE COMPETENCIES

Frontend: React, Next.js, TypeScript, JavaScript, Redux, Zustand, TanStack Query, HTML5, CSS3, Tailwind CSS, Sass, Material UI, Chakra UI, Bootstrap, API integration

Backend: Node.js, Express.js

Tools: GitHub, Figma, Zeplin, React Testing Library

Other: WordPress, AWS, SEO

PROFESSIONAL EXPERIENCE

Samsung R&D Institute Philippines (SRPH) - Taguig **2025 - 2026**
Frontend Engineer

- Developed and launched frontend features from Figma and Zeplin designs using React and TypeScript.
- Integrated REST APIs, built reusable UI components, and developed unit tests using Jest and React Testing Library.
- Refactored existing code to improve performance, maintainability, and code quality.
- Participated in code reviews, quality validation (CQM/SAM), and collaborated with designers, QA engineers, backend developers, and distributed teams to deliver features in an Agile environment.

Acquiro Solutions and Tech Inc. (Globe Group) - Taguig **2023 - 2025**
Frontend Developer

- Converted Figma designs into responsive, cross-browser web applications.
- Developed reusable React components to improve consistency and code maintainability.
- Integrated REST APIs and implemented frontend business logic.
- Worked closely with product, design, and backend teams in Agile development.

Freelance **2022 - 2024**
Full-Stack Developer

- Built responsive websites and web applications for multiple clients.
- Integrated third-party and REST APIs.
- Optimized websites for performance, accessibility, and SEO.
- Maintained and enhanced existing client applications.

PROJECTS

Mobile Backend as a Service (mBaaS) | Next.js, TypeScript, Zustand, Tailwind CSS, ChakraUI, React Testing Library **2025 - 2026**

- Developed and maintained an administrative dashboard by integrating REST APIs, refactoring existing features, resolving bugs, and implementing unit tests with Jest and React Testing Library.

Next Xperience Today (NXT) | React, TypeScript, Redux, Sass, Node.js, Express.js **2023 - 2025**

- Rebuilt and revamped a legacy PHP job posting platform into a modern React-based application for job seekers and employers, implementing job listings, posting forms, dashboards, and chatbot integration.

Digital Democracy eLearning | Next.js, TypeScript, Redux, Tailwind CSS, Node.js, Express.js **2025**

- Developed a responsive eLearning platform focused on digital democracy, featuring educational content that promotes citizen participation, digital collaboration, and good governance in the Philippines.

EDUCATION

2022

National University - Manila
Information Technology with Specialization in Mobile and Web Application

---

HONORS AND AWARDS
